

Coimbra 18th of September, 2012

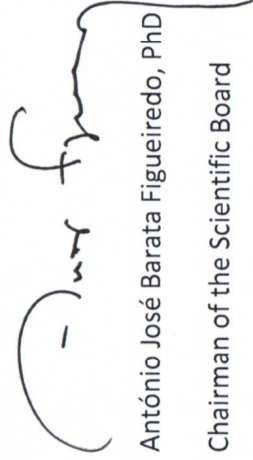

To whom it may concern

As chairman of the Scientific Board of the Faculty of Sport Sciences and Physical Education, University of Coimbra, Portugal, I confirm that the research project entitled “Transcultural Validation of Psychological Assessment Questionnaires – The Adult versions of the Physical Self-Perception Profile” is registered at the Centro de Investigação do Desporto e da Actividade Física (CIDAF) and received in October 2010 the approval from the Ethics and Human Subjects Review Board of our institution.

The purpose of this study was to start the transcultural validation of a Brazilian version of the Physical Self-Perception Profile with adults and young adults from different Brazilian States, Paraná (Ponta Grossa), São Paulo (Itararé), Minas Gerais (Belo Horizonte) and Mato Grosso (Rondonópolis), as well as to assess the validity and the reliability of this translated version and to access it’s adequacy to be fully used in the Brazilian culture.

This study, that has since then been implemented, respected all ethical and human subjects protection guidelines, such as those outlined by the Helsinki Declaration (1964, 2008).

Please feel free to contact me for any further enquiries.

António José Barata Figueiredo, PhD
Chairman of the Scientific Board
